Apple juice

100% natural, freshly squeezed apple juice - without sugar or additives, in packages that can keep juice fresh for over a year unopened and for a month after opening.

Keywords: Apple juice Fresh juice Fruit juice

Cooperation Offered

1. Distribution

Offer

Dried fruits

Specific feature of drying technology is the use of osmotic dehydration as the first drying stage. After removing 30% to 50% of water from fruit by osmotic treatment, fruit is further dried in the traditional dryer by means of the heated air. Fruit temperature never exceeds 45°C. Thanks to this “friendly treatment” the highest quality dried fruit is obtained and all gastronomic and nutritional values of fruit preserved.
